INFORMATION FOR USERS

Let us provide you with some instructions and recommendations for use and maintenance of purchased gloves. When making choice, consider the purpose for which the gloves will be used.

- Product:** Children's gloves, 5-finger, "MIKE" 3210 014 250 05
- Material:** Goat skin palm and fingers, cotton knitwear back, elastic cuff on wrist with velcro;
- Size:** 5 (5 years)
- Use:** Gloves for common non-professional use
- Attention:** *The gloves do not come under any PPE category and were not designed for protection against safety hazards. It is necessary to adapt their practical use to such conditions.*
- Care:** After use make sure that all contamination is removed from gloves. Thus, you extend the gloves' working life.
Wet leather gloves should be dried out gradually, freely laid out of sources of heat. They should not be dried in the sun, but further from a source of heat. It is good to stuff the gloves with a newspaper and impregnate and soften the leather with a suitable cream after they dry out.

The gloves must not be washed. Any dirt should be brushed using a soft brush or wiped out when wet. No chemical cleaning, bleaching, tumble drying or ironing.
Remember, the leather and fabric are waterproof materials.

- Storing:** The gloves should be stored in a suitably dry and clean place at room temperature. Protect them against direct sun rays and against heat sources.
- Disposal:** As a solid home waste.
