PPE CATEGORY I

Read the instructions carefully.

In accordance with the requirements of the Regulation (EU) 2016/425

Product: Textile gloves with fingertips dipped in Polyurethane.

Design:	„SOLO“	Code:	3440 002 100 XX	Size:	6, 7, 8, 9, 10	Production pattern:	18002010
Material:	100% Polyester, coating - Polyurethane.						

Purpose: These gloves are a simple personal protective aid designed only for protection against minimum risks the consequences of which may be expected soon enough by the user - small mechanical action whose effects are superficial. Weather conditions that are neither exceptional nor extreme nature. This is a special purpose gloves with a shortened length, the usual chores should not be used. Put the gloves on dry, clean hands.

The gloves were tested in accordance with EN 388 - mechanical hazards (The higher the number, the higher the protection factor)				
A (0-4)	Abrasion resistance	Performance level 0	 A.B.C.D	The protection works only against the specified hazards. Do not use the gloves as a protection against different hazards and classes. The results apply only for the model classes, not for the protection levels (classes). The protection levels (classes) are determined based on the tests carried out in accordance with the conditions determined in the valid standards specified above. The protection levels (classes) apply only for new gloves not washed or cleaned.
B (0-5)	Blade cut resistance (coupe test)	Performance level 1		
C (0-4)	Tear resistance	Performance level 3		
D (0-4)	Puncture resistance	Performance level X		
EN 420 - protective gloves (general requirements)				
(1-5)	Dexterity	Performance level 5		
„X“ = test not performed or not applicable..				

Please note: The user must check the gloves before and after use to verify that they are in the required condition. Do not use the gloves for handling of flames or hot or heated objects, toxic chemicals or greasy objects. The gloves must not be used in places where they may be caught by moving parts of machines. (Close to moving mechanisms.). Not resistant to soaking. The mentioned facts may help the user for rational use of this type of protective gloves. It is the responsibility of every user to judge, whether the gloves are used in suitable conditions.

Maintenance, lifetime: After use, make sure the gloves are removed from all pollutants. To prolong the life of the glove. The gloves are designed for single or short-term use only. Damp gloves should be dried out at a room temperature. Wash in hand, max wash bath temperature 30°C. Any dirt should be brushed out using a soft brush, nitrile Wipe with a damp cloth. Do not clean chemically, bleach, dry in a tumble dryer, or iron. The gloves that are worn through, have holes burned through, or are hard must be replaced. We are not responsible for possible reduction of the protective function caused by improper maintenance.

Storing and transport: Storing in a clean, dry and ventilated place at the room temperature, without any contamination by moisture, dirt, mould, or other agents reducing the level of protection. Do not expose it to solar radiation. The supplier doesn't provide warranty for such damage. Carry them preferably in original package.

Accessories: The product is supplied without accessories.

Dangerous admixtures: Materials which come into contact with the user's skin can cause an allergic reaction in sensitive individuals. Contains traces of DMF in compliance with occupational exposure limits. If skin irritation or allergic reaction do not use gloves and contact your doctor immediately.

Disposal: used gloves can be contaminated with infectious materials or other dangerous substances - dispose of them in compliance with the Act on Waste.

Conformity assessment carried out: CTC 4 rue Hermann Frenkel 69367 Lyon cedex 07 France.
